

E104

OCI® E104 is an all-purpose sealant designed for glazing and sealing applications with long lasting reliability. It adheres 100% to glass, tiles, ceramic, fiberglass, aluminium, non-oily woods and most painted or powder coated surfaces.

ORGASIL 103

OCI® Orgasil 103 is an acetic-cure sealant. Use it for sealing, bonding, repairing and mending of glass and window construction, double glazing, aquariums, shower screens and sanitary ceramics. It also adheres to fiberglass, aluminium, non-oily woods, plastics and painted or non-porous surfaces.

ORGASIL 2000

Orgasil 2000 is an acetic-cure sealant for construction and household repairs.

It seals and adheres to glass, tiles, ceramics, fiberglass, aluminium, non-oily woods, plastics and painted or non-porous surfaces.

ORGASIL 198

OCI® Orgasil 198 reacts with moisture to produce a high performance, formed-in-place seal. It is suitable for weather sealing, industrial applications including automotive and shipbuilding, all metal and masonry building materials, glass, tiles, ceramic, steel, zinc, lead, copper, brass, plastic, non-oily wood and painted surfaces.

N192

OCI® N192 is a high-performance, medium-modulus sealant for internal and external applications. Odourless and non-corrosive, it is excellent for many common building materials such as metals (aluminium, steel), concrete, bricks, plasterboards, glass and most painted or powder coated surfaces.

N193

OCI® N193 is a multi-purpose sealant that is great for various internal and external applications. Cures at room temperature for excellent sealing adhesion to all metals (aluminium, steel), concrete, bricks, plasterboards, glass and most painted or powder coated surfaces.

GLASS & ALUMINIUM

OCI® Glass & Aluminium Sealant is a versatile sealant for durable, flexible and waterproof seals.

It can withstand heat, chemicals and vibration, making ideal for all types of glass and aluminium.

KITCHEN & BATHROOM

OCI® Kitchen & Bathroom Sealant is most suitable for these hot and humid areas. It resists mildew without discoloration and remains flexible. It is widely used for caulking, sealing, mending and bonding of fixtures, tiles and accessories made of ceramic, glass and plastic.

AWNING & ROOFING

OCI® Awning & Roofing Sealant is specially formulated for sealing internal & external joints where small amount of movement occur.

It has excellent primer-less adhesion for easy application on metal, wood, glass, zinc, slate, ceramic and etc.

LIQUID BOND

OCI® Liquid Bond is a multi-purpose adhesive sealant that will not slump on vertical surfaces. It gives strong and secure bond to common construction materials including wood, plastered wood, particleboards, masonry, aluminium, galvanized iron, steel, fibrous cement sheeting, wall, bricks, concrete and floor paneling, and backed tiles.

ACRYFIL 788

OCI® Acryfil 788 Sealant is a high performance plastic-elastic sealant that is paintable, odourless and does not corrode metals. It is excellent for bonding and sealing of joints and cracks in concrete, plasters, brickworks, wood and automotive bodywork joints.

SEALGAP

OCI® SealGap Acrylic Sealant is ideal for filling and sealing gaps, joints and cracks where expansion and contraction occur.

It remains flexible and once cured can be painted over for a neat finish. Use it for concrete, plasters, bricks, wood and other indoor applications.

Product Name	Color	Packaging Size	Packaging Details	
			Inner Box	Outer Carton
OCI® E-104 All Purpose Sealant	Clear, White, Black	300ml	Nil	25
OCI® Orgasil 103 Construction Sealant	Clear, White, Black	300ml	Nil	25
